Sir,

Please read the following resolution of the Government of Bombay 6811/51 dated 28th January 1955.

Land Acquisition

- of sites from Harijans Localities and lands of Harijans.

Government of Bombay

Revenue Department

Resolution No. 6811/51

Bombay Castle 28th January 1955.

Resolution of Government.

Government is pleased to direct that in all cases of land acquisition where interest of Harijans are involved in view of the Harijans and those of the District -- Backward class welfare officer concerned should be -- invarially be ascertained by acquiring officers before deciding the cases. Cases where acquiring officers decide to take action contrary to the vies expressed by Harijans and/or by the District B. C. W. officer should be sub--mitted for orders of Government through the Collector and Director of B. Class welfare stating their final recommendations and justification therefor."

By order and in the name
of the Government of Bombay

B. T. Naik

Proceedings are going on for acquisition of the land of the applicants (1) Datu Rama Chambhar (2) Tukaram Rama Chambhar (3) Sakharam Rama Chambhar (4) Chandappa Rama Chambhar all members of a joint Hindu family of depressed class of Bedkihal. Tal-Chikodi Dt Belgaum

Representation was made to the Prant Officer - Chikodi Division District Belgaum on 11-9-1954 in continuation of their say dated 20-8-1954 through their pleader shri U. H. Pathan pleader Chikodi(A copy of which is attached for perusal) requesting for the dropping of these proceedings.

The Prant Officer visited the site and was almost convinced of the genine grievance of the applicants. But unfortunately the efforts of influential persons like that of late Dr. M. M. Shah president of Nipani City congress who was also the then chairman of the said local school committee, Balappa Khot of Shamnewadi a big land-lord and other rich influential jain members of the committee however came it seems in the way of dropping of this proceedings.

Fortunately now the government resolution above referred to has come now as a sort of relief to the applicants, who are illeterate and they wish to ventilate their grievance now through the same.

They are personally cultivating the land in question and trying to meet their family needs in addition to their hereditary chambhar business which is now almost a dwindling source of income in view of the modern prepertion of fashionable etc. This is the only land [illegible] to them.

The accompanying map of the site and the school building and its surrounding sites will not fail to convince the authorities conserned that the move of the school committee is imply mischious and started with the entire motive of uprooting the family from the locality.

The lands pointed out in the map belonging to -- Ratnappa Karlingappa Shelli and Irappa Sangappa Shelli are so spacious that they can accommodate half a dozen of

such High Schools and their requirements.

Looking to the map one fails to understand why the school committee has not proposed acquisition of the lands belonging to the Shellis which are just adjacent to the school building and are rather away from the public - Shamnewadi - Bedkihal Road. Activities and premises of the High Schools are always as a matter of fact little removed from the hurry and bustle of the public. The land of Rama Walla Kalkate shown in the map is also more adjecent to the school building and more convenient. Leaving these two lands which are quite adjacent and - convenient, it is not known why the only land belonging to us members of depressee class which quite far away and on the other side of Nej Road and in a corner is selected. It is really an intrigue as to why the school committee is enamoured and has taken a fancy for our site only.

It is either because of the mischievous motive stated abive or the school committee wants this site of us which is quite adjacent to the said road out of commercial point of view and to make gain out of it by constructing their own buildings. and leting out. At present and in due course the site would fetch a price of Rs. 6000/- to 7000/- if laid out in building plots. The site is on a public Road and is midway between Shamnewadi and Bedkihal which are at a distance of half a mile each from the site. Because of the school building and the kannerse buildings and other industrial buildings of Bhate and other -s near about the site has acquired to commercial value and it is likely the villages on both sides may have their extention also, by the side of the big road and near about the school building. There is a growing habitation around about the site.

The site of us is neither sufficient for any play

ground etc. while the land of Shelli's is quite spacious adjacent and convenient for play ground and any number of buildings required for the school pupposes and so also the land of Mallappa can also be av-ailed of by the school committee.

We are making this pathetic and fervent appeal to the authorities concerned to look into the matter and see whether our grievance is genuine or not also to st-udy the motice of the school committee members. In this connection we appeal that the visit to the site will entirely convince any impartial agency of our say.

We the applicants entirely rely upon the Govt. resolution quoted and want to see that the resolution does not remain a dead letter and our just and genuine case. The Prant Officer is specifically requested in this behalf to either drop the proceedings and should make a reference to Government for the purpose in view of the Government resolution referred and a request made by the applicants.

We further hope that the authorities concerned in this behalf will tale this matter to the Government and impress upon it the urgent and dire necessity of dropping these acquisition proceedings in the interest of justice and fair play.

We poor and illeterate applicants have limited means and can not make any serious attempt than appealing to the sence of justice and fair play by on behalf of Gove-rnment regarding our just cause and this we are doing by addressing these few lines to all those whi have the interest of depressed class at their hearts.

Hoping that this our pathetic appeal will not fallon deaf ears.

Yours faithfully,

Subject:- LRS 10/SR-3202 - Acquisition of land S.No. 728/1+2 - Re-LRs of Bedalga Dharmavadi.

Sir,

The undersigned owners of the said land beg to - submit the following in continuation of their say laid before you on 20-2-1954.

(1) The land in question is far away from the school Building and the same is not necessary for the alleged purpose.

(2) There is ample space round about the school - building.

(3) The S. No. on which the school building is constructed is sufficiently large enough to accommodate the various schemes and purposes of the school.

(4) Near about the school, there are other S.Nos. of Baruti Kalla Kalmate and that of Ramagouda Police Patil of Nadkihal and those are more suitable than the land of the applicants.

The state of affairs being so as detailed above, then why the only land belonging to us is being proposed to be acquired for the school purposes? The reason is not far to seek. It is only because we are members of depressed class and the school authorities who are mainly Jains and anti-untouchable do not want our neighbourhood as they know that the land being in the vicinity of the village we may construct our farm house and dwelling house there. Our family house in the village Nadkihal is very small and there is no other space for our expanded family to construct additional dwelling - house. We have decided to construct small houses in the

land in question and this the leading members of the said institution know very well.

The management of the school have thought that no body would lend to our complaint and our voice would be a voice in the wilderness. Is it is sin to be born poor and - that too in a depressed class community?

The present Government's policy towards the sche-duled class is too well known. It wants to remove all the social economical and educational disabilities of the scheduled classes and tribes and the Government is straining every nerve to emancipate the depressed and back-ward from the servitude and age long bondage is early as possible. Government considers that untouchability and its consequent attendants i.e., social and economic boundage are stigma on the society. The question of putting the scheduled castes on the path of economic progress is not a matter of preaching alone but it is a matter of actual practice with the Government.

Suffice it to say that the Indian constitution itself has provided the scheduled classes with special safeguards regarding their edication and services and economic condition. The underlying spirit and principle behind all this is to enable us to move with the times and all other classes of society. Sections 330 and 332 of the Indian consitution provides for the reservation of seats for the scheduled class in the House of people and Legislature Assemblies of the State. Section 335 specially provides for the consideration of our claims to services and posts. Section 338 provides a special officer for our society. Similarly the Government has reserved special scholarships for the advancement of the education of the members of our class.

All this is done to expedite our progress in all walks of life and it can never be imagined that Govt.

wants to retain our progress by taking away and depriving us of our only means of livelihood which we already possesses it would be clipping of our wings.

The policy of the Government is also well known regarding the waste lands. It reads the scheduled class people should be given first preference in cultivating them and if possible they are to be helped economically in that direction.

That being so Your Honour will be pleased to visit the site and find out the truth or otherwise of what we have stated here.

The proposed move is mischievous and malicious and it would be sheer irony of fate if we are deprived of the only land we possess and which is the main and only source of livelihood of maintenance of our family which consists of four brothers and innumerable family members and dependents.

We cannot sufficiently stress upon your Honour the justification of our cause except making this most humble pathetic appeal, to cancel the acquisition of our land and asked the Government to point out another piece of land if at all they want one.

Hoping that your Honour will take sympathetic and consideration view of our land. The case would have been different if our land was the only land suitable and no other land available round about the school. In short it is not the case of unavoidable evil.

Yours faithfully,

Most of the members of the above society are Lamanis. But they are given only 3 acres of land each. This is much less than their needs. There are thousands of acres of Government land adjacent to the lands now given. We therefore, request that the Lamanis should be given at least 40 acres per head and other necessary things like seeds Oxen, agricultural implements, loans, etc., which will help the progress of the people and the society.
